SUMMARY

As an iOS Developer, I'm on a mission to conquer the app universe one line of code at a time. With a passion for learning, a dash of humour, and a sprinkle of caffeine, I bring innovative ideas to life and create unforgettable user experiences. If you're looking for someone who can code with a smile, I'm your developer extraordinaire. Let's build something amazing together!

EXPERIENCE

iOS developer

FoodClub

May 2023 – Present, Glasgow

- Developed and implemented 20+ SwiftUI views, resulting in a visually appealing and user-friendly interface for the Food Club app.
- Optimized and refactored 1000+ lines of code, leading to a 30% improvement in app performance and a 20% reduction in crash rates.
- Successfully led and mentored a team of 5 interns, resulting in a 40% increase in their productivity and the timely delivery of key milestones.
- Integrated 3rd-party backend APIs, enabling seamless data communication and contributing to a 25% reduction in data retrieval time.
- Collaborated with cross-functional teams to gather requirements and proposed 10+ innovative ideas, resulting in the implementation of new features that improved user engagement by 15%.

iOS developer

United Bank limited

May 2021 – December 2021, Islamabad, PK

- Played a key role in identifying and rectifying critical bugs causing app slowdown, significantly improving app performance and user experience.
- Drove user engagement by crafting and integrating new functionalities, harnessing APIs to deliver an enriched app experience. Created custom UIKit views with animations, ensuring seamless performance on all devices.
- Utilized Swift programming to dynamically and programmatically craft responsive views, resulting in intuitive and user-friendly interfaces. Integrated popular sign-in services like Google Sign-In and Apple Sign-In for streamlined user access.
- Actively participated in code reviews, driving increased code efficiency and adherence to quality standards. The result: a 20% reduction in code bloat, a 20% decrease in code changes, and a 10% improvement in code quality.
- Successfully integrated push notification services to enhance app engagement and provide real-time updates to users.
- Orchestrated seamless app localization to ensure a consistent user experience across different regions. Spearheaded localization efforts and rigorously tested the localized versions for bug-free functionality.

EDUCATION

Big data technologies

Glasgow caledonian university • Glasgow, UK • 2023

Bachelors in computer science

Minor in No • IQRA university • 3.5 • Islamabad, PK • 2021

CERTIFICATIONS

iOS developer bootcamp

Udemy • 2021

SKILLS

Swift, Software: IOS Developer, Swift, Xcode, Xcode UIKit, Auto Layout, Swiftui, Google Maps, Firebase, Push Notification, API Integration, Object-Oriented Programming (OOP), Google Sign-In, Apple Sign-In, Bug Fixing, App Localization, Performance Optimization, Code Refactoring, User Interface Design, Version Control (Git).
